#### Dear Interns,

We would like to congratulate you firstly, as you are beginning your last year of medical school, "internship". Internship is now the next step for a medical student in becoming a fully qualified doctor. You will find that your internship is the first time to get to practice actual hands-on medicine with your preceding medical training and theoretical background. You will be expected to acquire all the skills and experience necessary to qualify to practice general medicine.

In Acıbadem Mehmet Ali Aydınlar University School of Medicine, the aim is to educate the doctors of the future as individuals who practice evidence-based medicine, acknowledge the importance of research, who are inquisitive, honest and work for the well-being of humanity. Interns improve their medical knowledge and communication skills, and are supervised by faculty members. In your internship year, our aim is to apply your clinical knowledge in out-patient clinics and services, gain more hands-on experience and practice basic procedures.

Internship at Acıbadem University School of Medicine takes place at Acıbadem Mehmet Ali Aydınlar University Kerem Aydınlar Campus, in the affiliated hospitals and other health institutions. The education program is concordant with the primary health-care program, called as the "UÇEP" (Ulusal Çekirdek Eğitim Programı). Accordingly, interns may be assigned to a different primary, secondary or tertiary health-care institution with suggestions from the Curriculum Development Committee, Program Coordinators, and upon approval from the Faculty Board and Dean. Should such an assignment occur, the education program is prepared considering the intern training based on the work principals of the department. These assignments may take place at in-patient and out-patient clinics, operating rooms, laboratories, primary care facilities and in community.

During your one-year internship, you will be having rotations in the Department of Internal Medicine (eight weeks), Community Health and Primary Care (eight weeks), Pediatrics (eight weeks), Emergency Medicine (eight weeks), General Surgery (four weeks), Obstetrics and Gynecology (four weeks), Psychiatry (three weeks) and Simulated Clinical Practice (one week). There will also be an elective rotation for eight weeks for which you may choose the specialty according to your interest.

Your rotations will include night-shifts. Your Log Book should be filled out during your rotation and handed to your supervising faculty member at the end of the year before graduation. The supervising faculty member in each rotation will provide further explanations to you. We consider you as our colleagues and attendance to all rotations is mandatory. Any occasions in which an intern will be absent should be within the knowledge of supervising faculty member of the rotation.

Internship is a great opportunity to thrive, learn and gain experience. We wish you all a successful year.

Prof. Sevgi ŞAHİN, M.D. Year 6 Coordinator

#### Course Aims

- The aim is to teach basic surgical topics and principles to sixth-year medical students with bedside training, case discussions and paper presentations. They will learn to be a part of a surgical team and will take direct responsibility for the patient care.
  - The students will have opportunities to join in the both inpatient and out-patient settings with medical teachers and other health professionals in the relevant hospitals of Acibadem Health Care Group.
  - Each student is expected to:
    - incorporate basic knowledge and clinical experience to obtain modern patient-oriented clinical care and
    - participate the care of patients in the various stages
    - (preoperative area, inpatient and outpatient clinics). operative procedures, recovery and follow-up) of evaluation and treatment by surgeons.

#### Learning Outcomes

At the end of this internship program the students will be able to evaluate the patient and analyze the symptoms and examination findings related with the following topics.

- Acute abdomen
- Acute appendicitis
- Acute mastitis, nipple discharge and symptoms of breast mass
- Anorectal disorders (anal abscess, hemorrhoidal disease, anal fissure, etc) and differential diagnosis such as rectal cancer.
- Acute cholecystitis
- Abdominal wall hernia
- Thyroid disorders
- Define minimally invasive surgery and robotics
- Apply the following skills under observation
  - o Suturing and suture removal
  - o Abscess drainage
  - o Placement of urinary catheter
  - o Placement of nasogastric tube
  - Wound care
- Prepare a medical report of a patient and fill out daily follow-up notes of the patient

#### Internship Detailed Program and Information

Intern doctors in Acibadem University School of Medicine are responsible for the work in the Department of General Surgery during the 4-week period. On behalf of educational team, they have responsibilities to complete their internship program.

In this program, you will be interacting with physicians in the Department of General Surgery and observing them through every step of patient care. You will experience what surgeons do on a daily basis as you encounter patient-physician interactions in the clinics, pre and postoperative units, operating rooms, and bedside meetings during rounds.

Maturity, attentiveness, flexibility, and the ability to follow written and verbal directions are qualities that are absolutely imperative to prevent hindrance of patient care. Professionalism is essential. Please be respectful to the surgical staff and nurses at all times.

This internship program is operated under the guidance and direction of the Chairman of Surgery and internship coordinator. Start and end dates, hospital shift start and end times, requirements and/or the process of selection, student quidelines, and policies set forth by Acibadem University School of Medicine rules.

The Department of General Surgery consists of the following surgical subspecialties:

- Gastrointestinal Surgery
- Breast Surgery
- Transplant Surgery

#### Working Plan and Responsibilities

- 1- The responsibilities during the 6th year involve total care of all patients under the supervision of the faculty and senior resident staff.
- 2- The general surgery internship program lasts 4 weeks. In the beginning of the internship, the working schedule is declared to the intern doctors and this schedule is reported to the faculty and resident staff.

- 3- The general surgery internship program takes place in the Acibadem Atakent, Maslak and Altunizade Hospitals, all of which are affiliated to the Acibadem University.
- 4- Within this program, intern doctors are expected to work in the inpatient and outpatient clinics as well as in the operating rooms.
- 5- The working hours are between 7:30 am and 4:30 pm. Absence from the clinic without reporting an excuse is not allowed. Interns who will be absent must report, in advance, their excuse to the clinical coordinator. Otherwise, the internship program will be subject to repetition.
- 6- At the beginning of the internship, intern doctors are divided into 3 groups: outpatient clinic, inpatient clinic and operating room. The senior staff declares the 4-week working schedule responsible for the internship program.
- 7- The faculty members and/or chief surgeons conduct ward rounds. All the interns must be present during the morning rounds.
- 8- During ward rounds, interns who are in charge with the inpatient clinic will present their patients. Interns are obliged to know all the clinical data of the patients they are responsible for.
- 9- Interns who are responsible for the inpatient clinic will accompany their patients during consultations, and they are supposed to be in direct contact with the consultants and prepare the treatment plan under the guidance of senior surgeons.
- 10- In the inpatient clinic, interns are supposed to take patient history, change wound dressings, and insert nasogastric tube and urinary catheters under the supervision of the surgical staff.
- 11- In the outpatient clinics, interns are supposed to participate actively to the clinical examination of patients.
- 12- Interns working in the operating room are supposed to be present in the operating room from 7:30 am and 4:30 pm. They are expected scrub up and participate to the surgical procedures.
- 13- Rooms available for intern doctors are located in the inpatient clinics and in the departmental area. Interns can use these rooms during their free times in the clinic.

- 14- During the general surgery internship, each intern must be on duty 4 times and one of these will be a weekend duty. The schedule will be announced to the interns in the beginning of the internship. Interns are supposed to start their duty at 4:30 pm (during the week), 9:00 am (at weekends) and finish on the next day at 9:00 pm. Interns are allowed to take one-day leave after the completion of the duty.
- 15- During the internship program, all the interns are supposed to participate to the multidisciplinary meetings carried out in the clinic.

  These meetings are;
  - 1) Gastrointestinal oncology meeting (every Monday, 7:30-8:30 am),
  - 2) Breast oncology meeting (every Friday, 7:00-8:30 am).
- 16- In the 3rd week of the internship program, a monthly morbidity and mortality meeting is carried out and the head of the department will declare the exact date of this meeting. Interns must participate to this meeting.
- 17- In the clinic, a monthly "literature presentation meeting" is carried out and the head of the department will declare the exact date of this meeting. Interns must participate to this meeting.
- 18- Each intern will have a faculty or senior resident staff responsible for the intern. In the middle of the internship program (at the end of the 2nd week), the staff will evaluate intern's working condition and any deficiencies will be reported to the intern. The same evaluation will be performed at the end of the internship and this will be graded and marked as success or fail.
- 19- Within the working hours, intern doctors must be in good relationship with the residents, surgical staff, faculty members, nurses and auxiliary staff and must obey code of conduct.
- 20- In addition to clean and tidy outfit/dress, intern doctors must wear white coat or uniforms at all times in the inpatient and outpatient clinic (male interns should shave daily).

|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Assessment<br>Methods  | Direct observation and evaluation of intern-patient relationships, patients' case files recorded by interns, completing the defined duties, scheduled tasks, medical interventions performed by interns.                                       |
| Course Aims            | This hospital based medical education program aims to deliver training in environment of wards and out-patient clinics of the tertiary healthcare facility.                                                                                    |

#### Learning Outcomes

At the end of this program, interns will be able to:

- Gather data for patients' case history, perform physical examination and organizing management plan.
- Manage contact with patients and with patients' relatives.
- Organize patient care, laboratory and radiologic tests under supervision of relevant primary doctor of the patient.
- Keep medical case file records and fill and organize them when required.
- Understand the legal issues regarding patients case files.
- Observe and interpret the changes in the patients' clinical and laboratory findings.
- Manage interactions between various hospital staff.
- Observe basic principles for management of an internal medicine ward.
- Perform interventions for care of the patient.
- Participate in the interplay of various disciplines required for the management of the patients who need multidisciplinary approach.
- Make informing speeches to the patients and relatives when required.
- Observe patient management in out-patient clinics.

#### COMPULSORY TASKS DURING THE INTERNSHIP

#### Ward Rounds

- Attendance to ward rounds at scheduled hours is compulsory.
   Intern doctors will present the hospitalized patients to the primary consulting doctor and other participants of the ward round.
- Intern doctors should keep personal case-files of the patients apart
  from the hospitals file. Case-files should be closed when the patient
  is discharged and files should be presented to the coordinators with
  this log-book at the end of education period of 8 weeks. Medicolegal
  issues regarding the case-file writing will be discussed during the
  ward rounds.
- Intern doctors are required to discuss differential diagnosis and treatment options during ward rounds.
- Intern doctors should accompany the patients during secondary consulting doctor visits and radiologic or endoscopic examination.
- Intern doctors will observe and perform interventions to the patients when appropriate.
- Intern doctors will visit the patients on daily basis and repeat the physical examination, check measured data such as blood glucose, urine output, vital sign etc.
- Working hours in the clinics is between 8:00 17:00 during week days. Sign-in and sign-out polling will be available between 8:00-8:30 in the morning and 16:30 – 17:00 in the afternoon.

#### Out-patient Clinics

- All interns will attend out-patient clinics and observe patient management with faculty stuff.
- All interns will attend out-patient clinics for the 8 weeks of education. Rotations will be at weekly basis.
- Duty in the out-patient clinics will start after the daily ward rounds and daily duration of the out-patient clinic will be determined by the relevant faculty member.

#### Seminars

- All interns will present a seminar under the supervision of a faculty member.
- Topic will be decided at least 1 week before the presentation.
- Seminars should be presented after the approval of the supervising faculty member.
- Dates and schedule of the seminars will be decided according to the supervising staff's programme.

#### Interventions

- All interns are obliged to perform ordered interventions under supervision of faculty staff.
- Intravenous line or urinary catheter placement, capillary blood sugar measurement, placement of respiratory masks, central venous pressure measurements are among many interventions that can be performed under supervision.

#### Night Shifts

- Intern doctors will have night shifts during week days.
- Night shift duty will begin at 17:00 and will finish at 8.30 next day.
- Interns on duty are obliged to visit hospitalized patients of internal medicine department at least once during the night shift.
- Night shift interns have the duty to inform other doctors about the events happened during the night shift, laboratory tests or radiologic examination to be followed-up.
- Interns with absenteeism without a solid excuse, particularly documented, and/or permission of consulting staff will have compensation on-call duties. Absenteeism more than legal limit will cause the renewal of the course program.
- The interns should comply with the terms and rules of the department, consulting staff, and the special requirements asked by the clinical wards. Maximum care should be performed in order to keep the patient records and privacy unexposed.

#### Training Sites

- Acıbadem University Atakent Hospital in-patient wards including organ transplantation units.
- Patients will be followed up in other departments units when transferred to the intensive care unit or coronary ward.
- Out-patient clinics of the Atakent Hospital including internal medicine, endocrinology, rheumatology, oncology, hematology, gastroenterology, nephrology, gastroenterology, pulmonology, cardiology.

#### Training Rotation Program

- Each intern attends the ward rounds, out-patient clinics according to the following durations:
- Hematology or oncology 2 weeks (mainly ward rounds)
- Gastroenterology 1 week
- Endocrinology 1 week
- Nephrology 1 week
- Cardiology − 1 week
- Infectious disease 1 week
- Pulmonology 1 week

| Course<br>Length       | Three weeks, of which the second week will be spent at Bakirköy Neuropsychiatric Hospital's Emergency Room (1 day) and Outpatient Clinics                                                                                                                                                                                                                                                                                                                                                                       |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Methods of<br>Teaching | Case presentations and discussions Attendance at Outpatient clinics and observation Taking History and performing Mental State Examination of patients seen at the Emergency Department, Outpatient Clinic or on medical/surgical wards as part of the concept of Liaison Psychiatry                                                                                                                                                                                                                            |
| Assessment<br>Methods  | Present a case which should include description of symptoms and mental state features, aetiological factors, medical/legal/family/substance misuse history, differential diagnoses, a plan of management, assessment of prognosis and risk assessment.  Present a recently published research article in the field of Psychiatry improving your knowledge of statistics and methodology in medical research (voluntarily).                                                                                      |
| Aim                    | Psychiatric interns should aim to improve their skills of actively incorporating any mental health issues that they will come across in their clinical practice. They should be able to diagnose and treat simple psychiatric cases (such as depressive illness, anxiety disorders) at a primary care level and make referrals to secondary care accordingly. Furthermore, they should be able to make a risk assessment for each patient (including psychiatric emergencies such as risk of suicide/homicide). |

#### Learning Outcomes

Describe the clinical presentation of common psychiatric disorders and summarize the major categories of psychiatric disorders, using ICD-10/ DSM 5.

Describe the pharmacological, psychological and other (e.g. ECT) treatment options for psychiatric patients, including the indications, method of actions and side effects.

Describe what may constitute risk to self-suicide, self-harm, high risk behavior) and risk to and from others and can conduct a risk assessment.

Take a full psychiatric history and carry out a mental state examination.

Understand principles of immediate care in psychiatric emergencies which may occur in A&E and general medical settings.

#### COMPULSORY TASKS DURING THE INTERNSHIP

- Attendance to outpatient clinic of Acibadem Atakent Hospital / Acibadem Maslak Hospital.
- Attendance to outpatient clinic and emergency unit of Bakirköy Mazhar Osman Mental Health and Neurological Diseases Education and Research Hospital

In the second week of the internship, students will attend to the outpatient clinic and the emergency unit under the supervision of a psychiatrist (field trainer). This part of the internship will primarily focus on clinical experience in general practice out-patient care.

Students have to comply with local working regulations as outlined by the responsible field trainer and are responsible returning their attendance sheets\* to the faculty in charge.

An on-call rota between the students should be established for attendance during the night.

#### **USEFUL INFORMATION:**

#### Training Sites:

- Bakırköy Mazhar Osman Mental Health and Neurological Diseases Education and Research Hospital (BRSHH)
- Acıbadem Atakent University Hospital (ACU)
- Acıbadem Maslak Hospital (ACM)

#### Responsibilities

- Working hours in the attended Departments usually are between 08:30 and 17:00 during the weekdays.
- Working hours in the Bakirkoy Mazhar Osman Mental Health and Neurological Diseases Education and Research Hospital will be communicated by field trainers-faculty in charge.
- The supervisor will complete the internship assessment form after the course based on evaluation of Clinical case management, Interaction with patient and community, Professionalism, Personal Professional attitude.
- Interns will deliver their assessment forms completed by their field trainer to the Intern İnternship Coordinator at the end of the internship period.
- The interns who cannot obtain sufficient evaluation will fail and repeat the course.
- The interns should comply with the terms and rules of the visited departments-units, consulting staff, and the special requirements asked for by the clinicians-field trainers. Maximum care should be performed in order to keep the patient records unexposed.
- Interns with absence without a solid excuse, particularly documented, and/or permission of consulting staff will have compensation on-call duties. Absence more than legal limit will lead to repetition of the course program.

#### Watch out for Following:

#### Behave according to ethical and legal principles.

- Act in a safe way towards patients. Understand the potential to do psychological harm to patients by providing untrained/unsupervised psychotherapeutic interventions and fostering inappropriate doctor-patient attachments.
- View psychiatric patients as being deserving of the same high standard medical care as patients with other medical conditions.
- Respect privacy/confidentiality rules designed by the relevant institute
- Organize a timetable amongst your group and come in pairs to attend Outpatient Clinics.

Clinical skills assessment,
Personal Professional Attitude,

#### Course Aims

The purpose of Pediatrics Internship is to integrate knowledge, attitudes and skills already acquired in the first 5 years of medical school into the clinical discipline, follow-up of healthy children and practice current diagnostic and therapeutic approaches in common medical situations.

Interns at Acibadem University School of Medicine will graduate equipped with interest and understanding of health issues regarding children in our country and the world with extensive knowledge in preventive and routine pediatric care. Interns will actively participate in care of hospitalized children and outpatients, practicing disease prevention, (differential) diagnosis, treatment and follow-up strategies and providing support for patient and family.

#### COMPULSORY TASKS DURING THE INTERNSHIP

#### Outpatient Clinics

All interns should attend evaluation of patients in outpatient clinics. They will be asked to take history and perform physical examination under supervision of consulting staff. All anthropometric evaluation must be fulfilled completely. If requested, laboratory tests and necessary papers should be completed. Prescription and drug dosage calculation must be performed. Pediatric interns will be assigned to different subspecialty outpatient clinics for 2-4 weeks during their programme.

#### Inpatient Clinics

All interns should attend ward rounds. They will be asked to take history and perform physical examination under supervision of consulting staff. Interns are responsible for daily follow-up of hospitalized patients. All anthropometric evaluation must be checked regularly. If requested, laboratory tests and necessary papers should be completed. Prescription and drug dosage calculation must be performed. Pediatric interns will be assigned to specialized in patient clinics where they may be given specific responsibilities. When possible, all clinical skills must be practiced under supervision of consulting staff like bone marrow aspiration, endotracheal intubation etc.

#### Journal Clubs and Academic Meetings:

All interns should attend weekly Academic Meetings, Wednesdays at noon. Clinical discussions and lecture presentations are provided by Academic Staff. All consulting staff and specialists are expected to attend the meeting. Each intern is required to perform an oral presentation during the Pediatric Internship programme. The subjects and/or articles will be provided by the consultant staff of the month. The Internship Director will announce the presentation schedule at the beginning of the course.

#### On-Call Duties in Emergency Out-patient Clinic:

All interns should be available during On-call duties and night shifts. They should perform all clinical skills under supervision of consulting staff.

In the next morning, interns are expected to verbally report their On-call duty experience to a staff physician.

#### **USEFUL INFORMATION:**

#### Programme Sites:

Acibadem University Atakent Hospital is the main venue for Pediatric Internship. With approval of both Internship Director and related Faculty Member, interns can rotate at Acibadem University Maslak Hospital for 2-4 weeks. The rotation plan will be organized on the first day of internship programme.

#### Pediatrics Internship Sites:

General Pediatrics and Well-baby out-patient clinics in Atakent and Maslak Hospitals

Neonatal ICUs in Atakent and Maslak Hospitals

Pediatric ICU in Atakent Hospital

Pediatric Emergency Unit in Atakent Hospital

#### Subspecialty Out-patient Clinics:

Pediatric Allergy and Immunology in Maslak,

Pediatric Cardiology in Atakent and Maslak,

Pediatric Endocrinology in Atakent and Maslak,

Pediatric Gastroenterology in Atakent and Maslak,

Pediatric Genetics in Maslak,

Pediatric Hematology and Oncology in Atakent,

Pediatric Infectious Disease in Atakent,

Pediatric Nephrology in Atakent,

Pediatric Neurology in Maslak Hospital.

#### PEDIATRIC INTERNSHIP OVERVIEW

The working schedules are subject to alterations based upon emergency conditions due to patient health-care issues and unforeseen academic duties. Another consulting staff will supervise the interns in case the consultant is not available in the hospital.

#### Learning Outcomes

#### At the end of this program, interns will be able to:

- Develop effective communication skills, oral and written, with peers on their medical team, parents, attending as well as oral presentations skills in a variety of settings such as work rounds, patient consultations, family meetings, etc.
- Obtain an extensive pediatric history from the parent and from the child.
- Perform a complete physical examination on patients from the neonatal period through adolescence,
- Promptly assess mental status, cooperation quality and develop the ability to use Glasgow Coma Scale,
- Obtain appropriate anthropometric measurements according to age and evaluate the growth parameters effectively
- Develop a clinical assessment and management plan, demonstrating critical thinking skills and integration of previous basic science and clinical knowledge into management of pediatric problems
- Establish a plan for immunization practices, nutrition for well-babies, and oral rehydration therapy
- Provide adequate information and support for encouraging Breastfeeding
- Fully evaluate a patient with common morbidities in childhood, such as infectious, cardiac, endocrine, hematologic, neoplastic, immunologic, nephrological, neuromuscular and genetic diseases.
- Perform certain minor procedures in accordance
  with National Core Curriculum Guideline; venous puncture,
  establishment of peripheral/central venous line,
  establishment of urinary catheters, suturing, intubation,
  various site injections, basic life support, performing lumbar
  puncture and etc.

#### Learning Outcomes

- Experience on certain techniques; evaluation of peripheral smears, evaluating urine and stool analysis, obtaining various cultures with appropriate techniques, and etc.
- Measure and evaluate vital signs ie. blood pressure, heart rate and respiratory rate, body temperature.
- Perform and evaluate certain tests like electrocardiogram, pulmonary function tests, clotting time and etc.
- Prescribe common pediatric drugs and experience on weight based drug dose and parenteral medication calculations
- Experience on evaluation of common pediatric biochemical, hematological, microbiological and radiological tests
- Experience on preparation of patient file, writing follow-up notes and medical reports

#### Responsibilities

- Acıbadem Medical School Internship Rules and Regulations Documents apply to all interns.
- Working hours in Pediatrics Department are between 08:30 and 17:00 during the weekdays.
- Working hours in Pediatrics Department will be arranged in accordance with overnight on-call system during weekends and national holidays.
- The emergency outpatient clinic, clinical wards and intensive care units are available for patient service for 24 hours-and-365 days.
- On-call physicians and interns will be providing patient care and information for the consulting staff physicians during weekends and national holidays.
- The attendance sheet will be available for interns between 08:00-08:30 and 16:30-17:00 during weekdays.
- The interns will have 2 different parts of education and training course during internship. Each course will last 2-4 weeks under the supervision of an academic staff and will primarily focus on clinical experience in out-patient clinics or hospital wards (majority being in intensive care-units).
- The consulting physicians will complete the internship assessment form after 4-weeks course based on evaluation of Clinical case management, Interaction with patient and community, Professionalism, Personal Professional attitude.
- Interns will provide their assessment forms filled out by their consultants and to the Internship Director of Pediatrics at the end of each month.
- The interns should comply with the safety and healthcare terms and rules of Units and consulting staff. Maximum care should be provided to keep the patient records unexposed with respect to confidentiality.
- Maximum care should be performed to comply with hygienic procedures to keep the patients germ-free not only in intensive care units but also in outpatient clinics.

| Course Aims            | The purpose of this course is; to provide sixth year medical students necessary knowledge about etiology, clinical signs-symptoms, differential diagnosis and treatment of common obstetric and gynecologic problems and, emergencies.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |  |  |  |  |  |
|                        | Interns are expected to; Actively participate in maternal and fetal monitoring during labor and learn dynamics of vaginal delivery.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |  |  |  |  |  |  |
|                        | Realize how OB/GYN merges surgery, medicine, and primary preventive care into a single practice. Discuss how overall mental and physical health interacts with reproductive function.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |
|                        | Gain comfort in taking an appropriate OB/GYN history and performing pelvic examination. Introduce the principles of surgery related to women's health                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |
| Learning<br>Outcomes   | <ul> <li>At the end of this internship program students will be able to;</li> <li>Demonstrate the ability to perform a thorough OB/GYN history, including menstrual history, obstetric history, gynecologic history, contraceptive history and sexual history.</li> <li>Demonstrate the ability to perform a gynecologic examination (Speculum/bimanual)</li> <li>Demonstrate the ability to perform an obstetric exam</li> <li>Demonstrate the ability to perform Pap smear.</li> <li>Demonstrate the ability to interpret electronic fetal monitoring.</li> <li>Demonstrate the ability to provide contraceptive counseling</li> <li>Demonstrate the ability to communicate the results of the OB/GYN history and physical examination by well-organized written notes and oral reports.</li> <li>Demonstrate the ability to formulate a differential diagnosis of the acute abdomen including ectopic pregnancy</li> </ul> |  |  |  |  |  |  |

| Learning<br>Outcomes   | <ul> <li>Demonstrate the ability to describe the etiology and work up for infertility</li> <li>Demonstrate the ability to describe gynecologic malignancies including risk factors, signs and symptoms and initial evaluation of abnormal Pap smear, Postmenopausal bleeding, and adnexal mass/cyst.</li> <li>To have basic knowledge about antenatal and postpartum follow-up, determination of obstetric risk factors, management of obstetric hemorrhage principles. Demonstrate the ability to develop hypotheses, diagnostic strategies and management plans in the evaluation of antepartum, intrapartum and postpartum patients.</li> <li>Demonstrate the ability to develop hypotheses, diagnostic strategies and management plans in the evaluation of patients with gynecologic problems, including routine postoperative care following gynecologic surgery.</li> <li>Follow and assist 5 vaginal deliveries and appreciate dynamics of delivery.</li> </ul> |

| Educational<br>Methods | Case Discussions, Paper presentation and discussion, Bed side training, Assisting deliveries, Gowning for surgeries, Labor and delivery 24 hour calls (5 calls/month), Practice in operating and delivery room, Shadowing an attending for daily activities (outpatient clinic, surgeries and postoperative visits)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| Assessment<br>Methods  | Failure to sign in will be interpreted as absence; 20 % absence requires repeating the course, Attendance to clinics and compliance, Competency in Patient care, Case Presentations Paper / Lecture presentations, Attitude during rounds are measured                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

#### COMPULSORY TASKS DURING THE INTERNSHIP

#### Journal Clubs and seminars:

Each attendent of internship program should participate weekly journal clubs or seminar by Obstetrics and Gynecology Department. Time period is variable due to different hospital facilities. In the beginning of internship programe, this information will be provided.

#### Inpatient Clinics

Clinical studies in the inpatient clinics starts at 8:00 A.M. Inpatient clinic group divided to two team. One team for patient care, one team for operation room. Clinical skill development and interventions should be done under supervision of clinical staff or mentor. All clinical records Outpatient clinics etc...

Log bbok about clinical skills should be completed during obstetrics and gynecology internship and presented to supervisor at the and of obstetrics and gynecology internship.

#### Useful information:

#### **Training Sites:**

Acibadem University Atakent Hospital, Acibadem Maslak Hospital

#### Responsibilities:

- Working hours in Obstetrics and Gynecology Department are between 08:00 and 17:00 during the weekdays.
- Working hours in Obstetrics and Gynecology Department will be arranged in weekends
- The emergency outpatient clinic, clinical wards and intensive care units are available for patient service for 24 hours-and-365 days.
- On-call physicians and interns will be providing patient care and information for the consulting staff physicians during weekends and national holidays.

- The signature sheet will be available for interns between 08:00- 08:30 and 16:30-17:00 during weekdays.
- The internship program for Obstetrics and Gynecology Department consists of 4 weeks in 2 different periods.
- The interns will have 2 different parts of education and training course
  during internship. First course will last 3 weeks under the supervision of
  an academic staff and will primarily focus on clinical experience in
  out-patient clinics or hospitalized patients. Second course will be last
  1 weeks of internship and determined by director of obstetrics and
  gynecology department.
- The consulting physicians will complete the internship assessment form after 4-weeks course based on evaluation of Clinical case management, Interaction with patient and community, Prof. essionalism, Personal Professional attitude.
- Interns will provide their assessment forms fulfilled by their consultants and deliver to Inter Internship Director of Obstetrics and Gynecology Department at the end of 4-weeks course.
- The interns who cannot obtain sufficient marks from assessing consultants will fail and repeat the course. Sufficient means that he/she performed at least 60% of the above-mentioned performance.
- The interns should comply with the terms and rules of the Obstetrics and Gynecology Department, consulting staff, and the special requirements asked by the clinical wards. Maximum care should be performed in order to keep the patient records unexposed.
- Interns with absenteeism without a solid excuse, particularly documented, and/or permission of consulting staff will have compensation on-call duties. Absenteeism more than legal limit will cause the renewal of the course program.
- Maximum care should be performed to comply with hygienic procedures to keep the patients germ-free not only in intensive care units but also in outpatient clinics.

#### Educational Methods

#### Clinical Skills Training;

- CASE Simulation booth camp
- Program content
- 1st day; Altered Mental Status Management
- 2nd day; Multiple Trauma Management
- Focused Assessment with Sonography for Trauma (FAST) Lecture and practice with simulator
- 3rd day; Chest Pain Management, Dyspnea Management
- 4th day; Abdominal Pain Management
- 5th day; Busy Day in the ED
- Chaos of the ED is created by standardized patients and simulators.
- In the first 3 days of theme based simulation sessions, instructors play the role of patient's relatives to increase the stress factor of the situation. In the last 2 days, standardized patients are created by real actors and instructors and high-fidelity simulators are used together to improve communication skills and for crisis resource management training. To enhance the realism, real hospital documentation and laboratory tests are used, such as electrocardiogram, computed tomography and ultrasonography. For crisis resource management training, breaking bad news to agitated patient's relatives added to the scenarios at busy ED. At the end of the each simulation session, debriefings are performed by watching the recorded videos. According to their technical and nontechnical skills, participants are evaluated.

#### Educational Case Disscusions (ECG, X-ray reading) Methods Blended learning Flipped classroom Online meetings https://iem-student.org/2018-edition/download-2018-book/ Bed Side Training Department Lecture Day on Tuesdays Assessment Performance\* assessment via: Methods Portfolio; comprehensive case presentations and reports assessment of student presentations (journal club, seminar and bed side visit) active attendance as outlined in the log book. Patient reports recorded by students (Approach to

- vaginal bleeding, orthopedic injuries)Attendance to clinics and compliance,
- Midrotation meeting practice-based tutor feed-back to identify strengths and opportunities (\* Students are evaluated by staff attending emergency physicians with whom they have worked during the period. Criteria utilized to evaluate a student's performance include the following: Patient care, medical knowledge, interpersonal and communication skills, Prof. essionalism)

clinical management for cardinal symptoms (Chest pain, abdominal pain, shortness of breath, trauma,

#### Course Aims

- To provide the student with the opportunity to gain experience in assessing a wide range of clinical problems seen in a teaching hospital emergency department (ED);
- To improve student's;
- Ability to take an accurate and concise history and physical exam in the undifferentiated patient; Undifferentiated emergency patients present with symptoms, not diagnoses.
- Ability to generate a comprehensive differential diagnosis ability to consider the worst possible (life- threatening) conditions first.
   Ability to develop a differential diagnosis, investigation plan, treatment, and disposition of the undifferentiated patient; technical skills in providing patient care in the ED. communication, collaboration, and Professional skills required for patient care in the ED.

#### Learning Outcomes

At the end of this program, interns will be able to:

- Consider the worst possible (life- threatening) conditions first.
- Take an accurate and concise history and physical exam in the undifferentiated patient.
- Generate a comprehensive differential diagnosis in ED.
- Have technical skills in providing patient care in the ED. (e.g., CPR, intubation, defibrillation)
- Have communication, collaboration, and Professional skills required for patient care in the ED.
- Have an adequate skill of decision making on patient discharge and writing prescription.

#### COMPULSORY TASKS DURING THE INTERNSHIP

#### 1. Attendance to CASE Booth Camp in Emergency Medicine:

The first week of the internship entail a program of booth camp with theoretical and practical emphasis for orientation and preparation purposes.

### 2. Emergency Department supervised by an Attending Emergency Physician:

Beginning in the 2nd week of the internship, students will start consulting at a emergency department under the supervision of a attending emergency physician. This part of the internship will primarily focus on clinical experience in emergency medical care. Students have to comply with local working regulations as outlined by the responsible physician and are responsible returning their attendance sheets\* to the faculty in charge.

(\*Signed daily by the responsible physician)

#### Journal Clubs and Seminars:

Journal clubs and seminars are run by interns and faculty on Tuesdays, each week. Students are invited to choose four seminar topics and an article for their journal club session from a selection of relevant journals and seminar topics provided by internship faculty in the first week. Journal clubs are critical appraisal sessions of articles, presented by a student or faculty member followed by group discussion.

#### Attendance:

Attendance to CASE Booth Camp and all seminars (faculty and student seminars), workshops and journal clubs — as to all activities of the internship! — is mandatory!

#### **USEFUL INFORMATION:**

#### Training Sites:

- Acıbadem University Hospital,
   Halkalı Merkez Mah. Turgut Özal Bulvarı No:16
   Küçükçekmece / İstanbul
- Kerem Aydınlar Kampüsü,
   Kayışdağı Cad. No:32, 34752 Ataşehir / İstanbul
- Acıbadem Maslak Hospital,
   Darüşşafaka Mah. Büyükdere Cad. No:40 Sarıyer / İstanbul

#### Journal Club and Seminar Topics:

- Approach to the patient with dyspnea
- Approach to the patient with chest pain
- Approach to the trauma patient
- Approach to the patient with altered mental status
- Approach to the patient with acute abdominal pain
- Head CT evaluation
- Chest x-ray evaluation
- Radiologic evaluation of orthopedic injuries
- ECG evaluation

#### Responsibilities:

- Working twelve hour shifts in Emergency Department are between 11:00 am and 11:00 pm during the weekdays.
- Booth camp days start at 09:00 am in CASE.
- The signature sheet will be available for interns between 11:00- 11:30 am and 11:00-11:30 pm during weekdays.
- The internship program for Emergency Department consists of 8 weeks in 4 different periods.
- The interns will work under the supervision of an academic staff and will primarily focus on clinical experience in emergency department.
- The consulting physicians will complete the internship assessment form after 4-weeks course based on evaluation of Clinical case management, Interaction with patient and community, Professionalism, Personal Professional attitude.
- Interns will provide their assessment forms fulfilled by their consultants and deliver to Intern Internship Director at the end of each 4-weeks course.
- The interns who cannot obtain sufficient marks from assessing consultants will fail and repeat the course. Sufficient means that he/she performed at least 60% of the above-mentioned performance.
- The interns should comply with the terms and rules of the Emergency
  Department, consulting staff, and the special requirements asked by
  the clinical wards. Maximum care should be performed in order to
  keep the patient records unexposed.
- Interns with absenteeism without a solid excuse, particularly documented, and/or permission of consulting staff will have compensation on-call duties. Absenteeism more than legal limit will cause the renewal of the course program.
- Maximum care should be performed to comply with hygienic procedures to keep the patients germ-free not only in intensive care units but also in outpatient clinics.

| Course Aims            | <ul> <li>This program aims to;</li> <li>Improve basic clinical skills in a safe environment</li> <li>Improve nontechnical skills for teamwork and crisis resource management</li> <li>Bring in experience by practicing on high fidelity manikins in real-like hospital set-up for management of clinical problems they will encounter frequently in real clinical conditions.</li> </ul> |

At the end of this program, interns will be able to:

State diagnostic and therapeutic approach to;

Cardiopulmonary arrest (Adult & Pediatric)

Arrhythmias

Acute coronary syndrome

Emergency cases

Chronic diseases (HT, DM)

Laboratory results

Manage crisis situations:

Teamwork

Collaboration

Communication

Leadership

 Perform technical skills in providing patient care (advanced airway management, defibrillation,
 IV, IM access )

#### COMPULSORY TASKS DURING THE PROGRAM

#### Attendance to Lectures:

Regarding to the content of daily program educator gives lecture for one hour every morning.

#### Skills Lab:

Students have to perform outlined skills under the supervision of educators.

#### Simulation Sessions:

Students have to attend all simulation sessions. Everyday regarding to the daily program students perform at different simulated clinical situations. Performances are recorded and at the end of each session educators give feedbacks to the students via observing records.

#### Debriefina:

Students attend to debriefing sessions and give feedbacks for both their own performances and team members' performances to educators.

#### Attendance:

Attendance to all lectures, skill lab activities, simulation sessions and debriefing is mandatory.

#### Responsibilities:

- \* Working hours usually are between 08:30 and 17:00 during the weekdays.
  - \* The signature sheets will be signed between 08:30-09:30 and 16:30-17:00 during weekdays.
  - Interns with absenteeism without a solid excuse, particularly documented,
    - and/or permission of consulting staff will have compensation on-call duties. Absenteeism more than legal limit will cause the renewal of the course program

#### Educational Methods

- Practice in family and community health centers and other community-based primary care institutions (e.g. hospices, elderly homes)
- Observation of patient journey and care trajectories by case analyses and discussions critical event analyses
- Structured tutor feed-back sessions
- Reflection sessions, peer education
- Site visits
- Seminars
- Journal clubs
- Student presentations
- Workshops
- Student research project

#### Assessment Methods

#### Performance\* Assessment Via:

- Comprehensive case presentations and reports
- Practice-based tutor feed-back (via standardized check-lists) to students' consultations with patients (and their families)
- Assessment of student presentations (journal club, seminar and research project results)
- Active attendance as outlined in the log book.

#### Course Aims

This community-based medical education program aims to provide an experiential learning-training environment for practice in primary health care institutions (e.g. Family Health Units-Centers, Community Health Centers, Tuberculosis Dispensaries, Local Health Authority, Occupational Health Units, Mother and Child Health Centers) in order to consolidate knowledge and skills regarding basic principles of community health and primary care-family medicine.

At the end of this program, interns will be able to:

- To manage primary contacts with patients, dealing with unselected problems,
- To co-ordinate care with other professionals in primary care and with other specialists,
- To act as an advocate for the patient within the social security and health care system,
- To understand the financial and legal frameworks in which health care is given at practice level,
- To adopt a person-centered approach in dealing with patients and problems in the context of the patient's circumstances,
- To communicate, set priorities and act in partnership,
- To value the benefit of longitudinal continuity of care as determined by the needs of the patient (continuing and coordinated care management),
- To accept and manage complexity in clinical and ethical decision making,
- To relate specific decision making processes to the prevalence and incidence of illness in the community,
- To selectively gather and interpret information from history-taking, physical examination, and investigations and apply it to an appropriate management plan in collaboration with the patient,
- To observe the effectiveness of certain clinical working principles. e.g. incremental investigation, using time as a tool and to tolerate uncertainty,
- To intervene urgently when necessary,
- To manage conditions which may present early and in an undifferentiated way,

- To manage simultaneously multiple complaints and pathologies, both acute and chronic health problems in the individual.
- To promote health and well-being by applying health promotion and disease prevention strategies appropriately,
- To manage and coordinate health promotion, prevention, cure, care and palliation and rehabilitation,
- To reconcile the health needs of individual patients and the health needs of the community in which they live in balance with available resources,
- To analyze and discuss the impact of the local community, including socio-economic factors, geography and culture, on health, the workplace and patient care,
- To use a bio-psycho-social model taking into account cultural and existential dimensions,
- To investigate and design a strategy to control outbreaks-epidemics,
- To calculate, interpret and use health indicators,
- To observe and discuss services delivered by Community Health Centers (CHC/Toplum Sağlığı Merkezi-TSM),
- To appraise the impact of policies, laws, and legislation on both, individual and population health,
- To explain and practice the expanded Program on Immunization (EPI),
- To outline the National Vaccination Program,
- To define target groups of the EPI and also adulthood vaccination,
- to calculate immunization rates, vaccination

- To practice cold chain and explain its importance,
- To apply the basic principles of communicable disease control in community settings,
- To name programs implemented by the Ministry of Health.
- To evaluate the characteristics of the current health system at primary level health services,
- To identify the environmental and occupational hazards, their role in health and discuss the control strategies of their effects,
- To explain effects of migration on health,
- To take a water sample and interpret analysis results,
- To explain the how to plan health care services in disasters conditions/health emergencies,
- To name and explain mode of action of modern family planning methods,
- To counsel individuals for an informed choice regarding their reproductive health,
- To educate communities for adopting a healthy life style.
- To manage forensic cases in primary health care

<sup>\*\*(</sup>patient-centered clinical consultation skills, clinical, scientific and ethical reasoning, application of appropriate scientific methodology to conduct research in the community-primary care, critical appraisal of the literature, presentation skills, effective communication with colleagues and the community, professional conduct)

#### COMPULSORY TASKS DURING THE INTERNSHIP

## 1. Attendance to Seminars, Journal Clubs, Clinical Practice and Workshops in Public Health-Family Medicine:

Attendance to all training activities is a main performance criterion of the internship. Attendance to all seminars and journal clubs, as well as to the practice rotations, site visits and the Community Health Center and Family Health Center clerkships is mandatory and will be assessed twice daily.

## 2. Outpatient Clinic in a Family Health Unit Supervised by a Family Physician (Aile Sağlığı Birimi, Aile Hekimi):

Beginning in the 3rd week of the internship, students will start consulting at a family health unit outpatient clinic under the supervision of a family physician (field trainer), in average 3 days a week. This part of the internship will primarily focus on clinical experience in general practice out-patient care. Students have to comply with local working regulations as outlined by the responsible field trainer and are responsible for returning their attendance sheets\* to the faculty in charge (\*signed daily by the field trainer).

#### Site Visits:

Daily site visits to the institutions mentioned below are organized in the second and third week of the internship. Faculty and students meet at the visited venue, detailed information on the program is provided by faculty in charge of the site visits in due course of the internship.

- a. Local Health Authority (İl Halk Sağlığı Müdürlüğü)
- b. Occupational Health Unit Hospital for Occupational Diseases (İş Yeri Hekimliği İş Sağlığı ve Güvenliği Birimi Meslek Hastalıkları Hastanesi) or other comparable institutions
- c. Medical Chamber of Istanbul (Istanbul Tabip Odası, ITO)

#### 4. Practice Rotations:

To observe and experience the practice of community-based health services for frail groups, the students visit primary health care institutions like refugee outpatient clinics in the community health centers, Tuberculosis Dispensaries, and a hospice-chronic and home care facility in daily rotations once a week from week 3-6 of the internship.

- a. Hospice, Chronic and Home Care Facility (AVITAL)
- b. Tuberculosis Dispensary (Verem Savas Dispanseri)
- c. Community Health Center Refugee Outpatient Clinic (Toplum Sağlığı Merkezi - Mülteci Polikliniği)
- d. Community Health Center Public Living Space and School Health Services (Toplum Sağlığı Merkezi Toplu Yaşam Alanları ve Okul Sağlığı Hizmetleri)

## 5. Health Promotion Project for the Community: Aim and infrastructure:

The aim of this task is to identify and investigate a significant health problem within the community based on observation made during clinical practice in primary care and/or practice in the community health centers or any other primary health care institution visited during this clerkship.

When planning the health promotion project, the students shall experience the benefit of scientific and analytical thinking to define and better understand and possibly resolve significant health/health care infrastructure problems in the community.

#### Subject:

The subject of the health promotion projects should arise from a significant problem within the local community where the students conduct their practices in primary health care which concerns health / health care and / or its infrastructure, behavioral and/or cultural aspects, in order to benefit quality of primary care in the community served. The students are counseled by clerkship faculty and primary health care professionals at the local health authorities to choose a subject.

#### Tasks and Timetable:

On the first day of the clerkship students are to form their research groups of 3 interns, each. Each group is assigned a project supervisor from the clerkship faculty. At the end of the second week of the clerkship the groups should be able to present their project topic / draft proposal to their faculty-supervisors. This session serves to receive productive feed-back on the project. The final project proposals are prepared and presented in a session attended by all interns on the last day of the clerkship, the project proposals are required to be;

- Shared by oral presentations with the intern group and supervisors
- Turned in as written reports to the research supervisors (each group to her own supervisor)

#### Journal Clubs and Seminars:

Journal clubs and seminars are run by interns and faculty on Fridays, each week at Acıbadem Atakent Teaching Hospital. Students are invited to choose seminar topics and an article for their journal club session from a selection of relevant journals and seminar topics provided by clerkship faculty in the first week. Journal clubs are critical appraisal sessions of articles, presented by a student or faculty member followed by group discussion.

#### 7. Attendance:

Attendance to all seminars (faculty and student seminars), workshops and journal clubs — as to all activities of the clerkship! — is mandatory!

#### **USEFUL INFORMATION:**

#### Training Sites:

#### Family Health Units- Centers and Community Health Centers:

All Family - and Community Health Centers attended by the interns are based in the districts of Ümraniye or Gaziosmanpaşa in Istanbul, which are the primary health care research and training regions of ACU SoM as per protocol between Acıbadem University and the Local Authorities.

- Gaziosmanpaşa 7 Nolu (Recep Sağlam) ASM
   Barbaros Hayrettin Paşa Mah. İnönü Cad. No: 27/1. 212/618 77 71
- Gaziosmanpaşa Karayolları ASM (GOP TSM Binasında)
   Karayolları Mah. 615. Sok. No: 1. 0212. 617 87 59
- Umraniye Merkez ASM
   Atatürk Mah. Estergon Cd. Okan Sok. No: 4. 0216 329 51 94
- Ümraniye 10 no'lu ASM

Koşuyolu Cad. Cenap Şahabettin Sok. No: 84 Koşuyolu 34718 İstanbul Tel: 0216/326 67 87

#### Journal Club and Seminar Topics\*:

Subjects for discussion during lectures, seminars and practice: Topics to be addressed during seminars and-or observation/practice in the various primary care institutions visited are;

- Introduction to Public Health
- Introduction to Family Medicine-core competencies-general principles-contextual framework
- Organization of the Health Care System in Turkey

- Research in the community research methodologies revisited
  - Descriptive studies
  - Cohort studies
  - Case-control studies
  - Interventional-experimental studies
  - Methodological studies
- Why and how to identify health care (HC) needs and describe utilization of HC services
- Health indicators and how to make use of them
- Health promotion and preventive care
- Chemoprophylaxis vaccinations herd immunity-elimination / eradication programs in TR
- Screening programs how to decide for a screening program
  - PC screening programs in TR
- Occupational health-prevention of work-related health hazards accidents
- Investigation of outbreaks epidemics
- Sexual and reproductive health counseling
- TNSA 2013 / comparison with MoH data
- Reporting cases with communicable disease why and how?
- Pre-partum and post-natal care, growth and thriving, well child visits
- Oral and dental health
- School health
- Migration and health
- Legislation and regulations related to health and PHC
- Health care in disaster conditions

<sup>\*</sup>Topics might be subject to change

#### Responsibilities:

- 1. Working hours in the attended Departments usually are between 08:30 and 17:00 during the weekdays.
- 2. Working hours in the Family Health Units-Family Health Centers (Aile Sağlığı Merkezleri) will be communicated by field trainers- faculty in charge.
- 3. The signature sheets will be signed between 09:00-09:15 and 16:30-17:00 during weekdays.
- 4. The consulting family physicians (field trainers) will complete the internship assessment form after the course based on evaluation of Clinical case management, Interaction with patient and community, Professionalism, Personal professional attitude.
- Interns will deliver their assessment forms completed by their field trainer to the Intern Clerkship Coordinator at the end of the internship period.
- 6. The interns who cannot obtain sufficient evaluation will fail and repeat the course.
- 7. The interns should comply with the terms and rules of the visited departments-units, consulting staff, and the special requirements asked for by the clinicians-field trainers. Maximum care should be performed in order to keep the patient records unexposed.
- 8. Interns with absenteeism without a solid excuse, particularly documented, and/or permission of consulting staff will have compensation on-call duties. Absenteeism more than legal limit will cause the renewal of the course program.
- Maximum care should be performed to comply with hygienic procedures to keep the patients germ-free in the outpatient setting.

| Course Duration        | 8 weeks                                                                                                                                                                                                                                                       |
| Course Aims            | A sixth-year medical student in Acibadem University Medical Faculty selects an elective internship in March or April 2022, where he or she will act as an intern or first year graduate under the supervision of senior house staff and attending physicians. |
| Learning<br>Outcomes   | The clerkship is almost all the time selected by the student upon his/her professional interest and career plan. Thus, the student can experience a glimpse of his/her future career without the burden of full responsibility.                               |

#### Assessment Methods

At the end of the elective rotation, an Elective Assessment Report must be completed by the Elective Supervisor and returned as soon as possible to Medical School Office of Acıbadem University.

If an Elective Assessment Report is not received the student is deemed to have failed the elective rotation.

#### Requirements

All Acibadem University Medical students must complete a total of eight-week clinical elective prior to graduating the faculty.

This eight-week period is separated to two four-week periods in the Academic Year of 2020-22 as a consequence of the rescheduled program due to COVID-19 pandemic. The first period was scheduled in July 2020, where interns were asked to complete the hands-on clinical training of their incomplete Year 5 clerkships due to the pandemic. The second 4-week elective is scheduled for June 2022, where students will themselves select the clinical electives they prefer, online, in March or April 2022.

An Elective Approval Form must be submitted to School of Medicine with details of the elective that the student is applying for.

The interns may complete their Electives in training hospitals or universities in or outside Turkey. For this option, they should previously apply to Dean's Office, request permission. If the approval is not received, the student must complete the selected Elective in Acibadem University.

Further information can be found in the electives guide. (Seçmeli Staj Rehberi)

## ANNEX 2 İNTÖRNLÜK DÖNEMİ REHBERİ

### ACIBADEM ÜNİVERSİTESİ TIP FAKÜLTESİ İNTÖRNLÜK DÖNEMİ EĞİTİM-ÖĞRETİM REHBERİ

#### Tanımlar

- a) İntörnlük dönemi: Tıp Fakültesi Dönem IV ve Dönem V stajlarını başarıyla tamamlayan öğrencilerin, mezuniyette sahip olacakları mesleki yeterliklerini tamamlamak amacıyla öğretim elemanlarının gözetiminde sağlık hizmeti sunan birimlerde rotasyon yaptığı ardışık programlardan oluşan 12 aylık dönemdir.
- b) İntörn: Acıbadem Üniversitesi Tıp Fakültesi'nin ilk beş yıllık eğitim ve öğretim dönemini başarıyla tamamlamış, Dönem VI'ya (İntörnlük Dönemi) başlayan öğrencidir.
- c) Intörn Değerlendirme Formu: Anabilim Dallarının görüşleri doğrultusunda hazırlanan, Fakültenin öğrenme hedefleri doğrultusunda kazanılması istenen klinik uygulamalar ve becerilerin izlenmesi, hasta ve toplumla iletişim, mesleki etik ve Profesyonel tutum alanlarının değerlendirildiği, intörnün program başarı durumunu izleyen ve belirleyen belgedir.
- d) İntörn Rehberi (Internship Logbook)
  - İntörnlük Program Rehberi: İlgili Anabilim Dallarının Dönem VI Koordinatörlüğü işbirliği ile hazırladığı, intörnün programdaki öğrenme hedeflerini, değerlendirme yöntemlerini ve programa özgün çalışma kurallarını ve intörnden beklenenleri içeren rehberdir.

- ii. İntörn Karnesi: Acıbadem Üniversitesi Tıp Fakültesi eğitim hedefleri ve müfredatına uygun olarak, anabilim dalları tarafından hazırlanan ve program süresince kazanılması beklenen bilgi, beceri, tutum ve davranışları içeren değerlendirme araçlarının takip edilmesinde kullanılan dokümandır.
- e) İntörn ve Program Temsilcisi: Dönem VI öğrencilerinin oylarıyla seçilen öğrenci "İntörn temsilcisi"dir. Her program grubunda, gruptaki öğrenciler tarafından seçilen bir öğrenci "grup temsilcisi" olarak görev yapar.
- f) Mezuniyet Kurulu: Dekanlık tarafından belirlenen öğretim üyeleri ve öğrencilerden oluşan, mezuniyet töreni ve bununla ilişkili faaliyetleri düzenleyen kuruldur.

## INTÖRNLÜK EĞİTİMİ

#### Programın Amacı

Tıp Fakültesi mezunundan beklenen yeterliliklere ulaşmak için intörnlük döneminde, uygun öğrenme ve çalışma ortamlarını sağlamak amaçlanmıştır.

Bu dönemde intörnler iletişim becerilerini de kapsayan klinik ve Profesyonel becerilerini geliştirme olanaklarını bulacakları eğitim ve araştırma hastaneleri ile birinci basamak sağlık kuruluşlarında ve toplumda öğretim elemanları ve uzmanların gözetiminde çalışırlar.

#### Eğitim Ortamları

İntörnler Acıbadem Üniversitesi Tıp Fakültesi Kerem Aydınlar Kampüsü, Acıbadem Üniversitesi eğitim ve araştırma hastaneleri, birinci basamak sağlık hizmetlerinin yürütüldüğü Eğitim ve Araştırma Bölgeleri ve çeşitli sağlık kuruluşlarında uygulamalı eğitim alırlar.

Dönem VI eğitim programı öncelikle birinci basamak hekimlik uygulamalarına yönelik, Ulusal Çekirdek Eğitim Programı (UÇEP) ile uyumlu olarak planlanır. Bu eğitim programı, anabilim dalı çalışma esaslarına uygun olacak şekilde, ilgili eğitim ve araştırma hastanelerinde servis, poliklinik, ameliyathane, laboratuvar gibi bölümlerde, intörn eğitimi ön planda tutularak hazırlanır.

#### Eğitim Planlaması ve Yürütülmesi

İntörnlük döneminde açılacak olan programlar her yıl ilgili kurulların önerisi ile Fakülte Kurulu (FK) tarafından belirlenir. Eğitim "İntörnlük program rehberi"nde belirlenen kurallara göre yürütülür.

#### İntörn Çalışma Saatleri

Dönem VI eğitim programı anabilim dallarınca belirlenen çalışma saatleri içerisinde sürdürülür. Çalışma saati bitiminden sonra intörnler gönüllü olarak kliniklerde kalabilirler. İntörnler ancak sorumlu oldukları hastalara ait ertelenmesi mümkün olmayan görevlerini bitirdikten sonra çalışma yerlerinden ayrılabilirler. Bunun dışında nöbet sistemi içinde çalışan birim ya da bölümlerde çalışma süresi anabilim dalı tarafından düzenlenir.

#### Nöbetler

Dönem VI eğitim programı içinde eğitim amaçlı nöbetler yer alır. Bu nöbetlerin aylık sayısı ve nöbet süresi anabilim dalları tarafından belirlenir. Eğitim amaçlı olan bu nöbetler bir ayda 3 (üç) günde 1 (bir) nöbetlen daha fazla olamaz.

#### Yeterliliğin Değerlendirilmesi

İntörnün yeterliliği programı yürüten anabilim dalı tarafından izlenir. İntörn değerlendirme formlarında belirtilen, klinik vakanın izlenmesi, hasta ve toplumla iletişim, Prof. esyonellik ve kişisel Prof.esyonel tutum alanlarındaki ölçütlere göre değerlendirme yapılır. Program sürecinde ve bitiminde değerlendirilir. Süreç değerlendirmesi intörnün gelişimini izlemek ve desteklemek amacı ile yapılır ve intörne geribildirim verilir. Porgram sonunda yapılacak değerlendirmede yetersiz bulunan intörn 'başarısız' kabul edilir. Başarı notu 'S' (successful), Başarısızlık notu 'U' (unsuccessful) dur.

Yetersizlik kararı gerekçeleri ile ilgili anabilim dalı tarafından Dönem VI Koordinatörlüğü aracılığı ile Dekanlığa bildirilir. Bu gerekçeler program değerlendirme formları, yeterlilik ölçütleri ve yoklama (devamsızlık nedeniyle ise) tutanaklarıyla belgelenmelidir. 'başarısız' kararı intörne program sonunda duyurulur. İntörn programı tekrar eder.

#### Devam Durumu

Intörnler programın tamamına eksiksiz katılmak zorundadırlar. İntörn, mazereti ile ilgili belgeleri dilekçe ile programı yürüten anabilim dalına sunar. Mazereti kabul edilen intörne telafi yaptırılabilir. Ancak bu süre (mazeretli olarak programa devamsızlık süresi) program süresinin %20'sini geçemez. Devamsızlık süresini aşan intörn programı tekrarlamak zorundadır.

## INTÖRNLÜK EĞİTİMİNİN YÖNETİMİ

#### Dönem VI Koordinatörlüğünün Görev, Sorumluluk ve Yetkileri

Dönem VI koordinatörlüğü baş koordinatörlüğe bağlı olarak çalışır. Dönem VI eğitim sürecinin Acıbadem Üniversitesi Tıp Fakültesi eğitim hedefleri ve müfredatına uygun olarak yürütülmesinden sorumludur.

- a) Anabilim dalı eğitim programlarının anabilim dallarınca bir önceki eğitim-öğretim yılı sonunda hazırlanıp baş koordinatörlüğe teslim edilmesini sağlar.
- b) Programların hazırlanması ve İntörn değerlendirme formlarının anabilim dallarınca doldurulmasını sağlar.
- Belirli aralıklarla baş koordinatörlük katılımı ile toplantılar yaparak anabilim dallarının dönem VI eğitimindeki sorunlarını tespit eder ve giderilmesi için gerekirse değisiklikleri düzenler.
- d) İntörnle belirli dönemlerde toplantılar düzenleyerek değerlendirmeler yapar, intörnlerin eğitim yılı içinde varsa yaşadıkları sorunları belirler ve geri bildirim formlarını inceleyerek raporlar hazırlar ve baş koordinatörlüğe iletir.
- e) İntörnlerin yetersizlik kararı veya devamsızlık nedeni ile tekrarlamaları gereken programların organizasyonunu sağlar.
- f) Mezuniyet süreci hazırlıklarını izler ve yürütür. Bu süreçte mezuniyet kurulunun çalışma programını kontrol eder.
- g) Mezuniyet ile ilgili belgelerin tamamlanmasını ve dekanlığa zamanında iletilmesini sağlar.

#### Anabilim Dalı Başkanlarının Görev, Sorumluluk ve Yetkileri

- Yeni akademik dönem başlamadan önceki Haziran ayında, program sorumlusu olarak bir öğretim üyesini görevlendirerek dekanlığa bildirirler.
  - b) Anabilim dalları yeni akademik dönem başlamadan, dekanlık tarafından belirlenen tarihlerde program amaç ve hedeflerini, araç ve yöntemlerini, yeterlilik ve değerlendirme ölçütlerini içeren program bilgi formlarını program sorumlusu öğretim üyesi aracılığıyla dönem VI koordinatörlüğüne sunarlar. Anabilim dalları programın hedeflerini UÇEP ve Acıbadem Üniversitesi Tıp Fakültesi'nin eğitim ve müfredat içeriğine uygun şekilde belirlemelidirler. Program hedefleri belirlenirken intörnün nöbet ve günlük uygulamalardaki sorumlulukları ve görevleri de belirtilir.
  - c) Anabilim Dalı Başkanları, intörnlerin klinik ve poliklinik uygulamaları sırasında program hedeflerine uygun eğitim almalarını, becerilerini artırmalarını, görgü ve bilgilerini geliştirmelerini, hasta takibi ile ilgili sürecin sorumluluğunu bir bütünlük içinde yürütmelerini sağlarlar.
  - d) Her program için eğitim hedeflerinin, uygulama yöntemlerinin tanımlandığı intörnlük rehberi (Internship Logbook) kullanılır. Program bitiminde, ilgili program sorumlusu ve anabilim dalı başkanı, anabilim dalının belirlediği hedefler doğrultusunda intörn değerlendirme formlarını ve devam durumlarını değerlendirip, başarılı olup olmadıkları konusunda ortak karar oluştururlar. İntörnlerin başarı durumunun değerlendirildiği bu formlar, program bitimini izleyen beş iş günü içerisinde dönem VI koordinatörlüğüne iletilir.
  - e) İntörnlerin nöbet ve izin durumlarını karara bağlarlar.

#### Program Başkanlarının Görev, Sorumluluk ve Yetkileri

#### Program Başkanları

- a) Anabilim dalının belirlediği hedeflere uygun olarak intörnlerin çalışma düzenini, eğitim ve rotasyon programlarını düzenlerler.
- b) Program süresince intörnlerin uzmanlık öğrencileri, öğretim elemanları ve diğer sağlık personeli ile uyum içinde çalışmalarını sağlarlar.
- c) Program süresince, intörnlerin çalıştıkları ve eğitim aldıkları klinik, poliklinik, laboratuvar, ameliyathane gibi alanlarda İntörnlük çalışma sorumluluğu dışındaki işlerde çalıştırılmalarını engellerler.
- d) İntörnlerin nöbet çizelgeleri program başkanları tarafından yönergeye uygun olarak hazırlanır.
- e) Program süresince, intörnlerin eğitimlerinin belirlenmiş hedeflere uygun yürütülmesini sağlamak, izlemek ve değerlendirmekle görevlidirler.
   Bu amaçla intörn değerlendirme formlarını birimlerdeki öğretim üyelerinin bilgisi doğrultusunda doldururlar.
- f) Program sorumluları, İntörnlerle her program başlangıcında program bilgilendirme toplantısı yaparak anabilim dalının beklentilerini, program kurallarını ve işleyişini aktarır, intörnlerin beklentilerini öğrenir.
- g) Program sürecinde ve sonunda değerlendirme toplantıları yaparak ve program değerlendirme formlarını uygulayarak intörnlerin program süreçleri hakkında düşüncelerini, değerlendirmelerini, beklentilerini ve önerilerini alır; rapor hazırlar ve Baş koordinatörlüğe iletir.
- jntörnlerin intörn değerlendirme formları ve program başarı durumları, program bitimini izleyen beş iş günü içerisinde dönem VI koordinatörlüğü aracılığı ile Dekanlığa iletilir. İntörn doktorların başarı

durumları ayrıca öğrenci otomasyon sistemine işlenir.

- Baş koordinatörlüğün belirlediği sürelerde yapılan değerlendirme toplantılarına dönem VI koordinatörlüğü ve intörn temsilcileriyle birlikte katılırlar.
- i) Her akademik yılsonunda anabilim dalı başkanıyla birlikte o akademik yıldaki intörnlerin anabilim dalındaki eğitim ve çalışmaları ile ilgili yılsonu değerlendirmesi yaparlar. Bu değerlendirmeleri ve anabilim dalının önerilerini içeren bir rapor hazırlarlar ve dönem VI Koordinatörlüğüne sunarlar.

#### İntörnün Hak, Yükümlülük ve Sorumlulukları

Her intörn Dönem VI'daki eğitimi süresince bir yandan hekimliğe ait ilke ve değerlerin rehberliğinde hastaların sağlık sorunlarına çözüm üretme becerilerini geliştirirken aynı zamanda da konferans, seminer, makale saati gibi akademik etkinliklere katılarak tıbbi bilgi ve eleştirel düşünme becerilerini geliştirir.

#### Bu amaçla her intörn:

- İlgili öğretim elemanının sorumluluğunda önceki eğitim dönemlerinde edindiği bilgi ve beceriyi uygular.
- b) Çalıştığı klinik birimin rutin poliklinik hizmetlerinde etkin olarak görev alır. İntörn, poliklinikte öğretim üyesi ya da uzmanlık öğrencisinin denetiminde hasta ile hekim olarak iletişim kurar, hastanın öyküsünü alıp fizik muayenesini yapar ve sorumlu hekimin denetiminde hastanın dosyasına muayene notu ekleyebilir. Ayrıca, hastadan hekim denetiminde gerekli tetkikleri isteyebilir ve gerekirse kıdemli bir hekime ya da başka bir anabilim dalından bir uzmana hastayı danışabilir. Tüm bu uygulamalar intörnün eğitimi için planlanıp uygulanır.

- y
  - c) Eğitim hastanelerinin yataklı birimlerde, yine eğitim için birden fazla hastanın hekimi olarak görevlendirilebilir. Her intörn sorumlusu olarak atandığı hastalarla ilk gün tanışır, öykülerini alır, dosyalarını inceler ve sonraki günlerde onları izleyerek sorunları ile yakından ilgilenir, kayıt tutar. Ayrıca, hasta ve hasta yakınlarıyla meslek ahlakı kuralları doğrultusunda etkin iletişim kurar, çalıştığı anabilim dalının kurallarına ve kendisine verilen intörnlük rehberine göre nöbet tutar ve öğretim elemanı sorumluluğunda tıbbi girişimlerde bulunur. İntörnler, acil gelişen durumlar dışında kendi sorumluluğunda olmayan hastalarla ilgili işlem yapamazlar ve yapmaya zorlanamazlar
  - d) Eğitimi süresince tıbbi kayıt tutma ve değerlendirme becerisi ile elektronik ortamda hasta yönetim programlarını kullanabilme becerisi kazanmalıdır. Bu işlemler sadece eğitim amacıyla yapılmalı, hastanenin ya da anabilim dalının işgücü açığını gidermek amacıyla uygulanmamalıdır.
  - e) Sorumlu öğretim üyesinin veya araştırma görevlisinin isteği ile ve denetimi altında, sorumlu olduğu hastaların laboratuvar/ radyoloji istek belgesini doldurabilir, hasta dosyasına laboratuvar/radyoloji sonuçlarını girebilir ve epikriz taslağı hazırlayabilirler. Bununla birlikte, yasal belge niteliği taşıyan veri tabanındaki hasta dosyasına veri girişi yapmak, konsültasyon isteği yapmak, epikriz yazarak hasta çıkışı yapmak, hastaya vermek üzere reçete yazmak veya laboratuvar/ radyoloji istek girişi yapmak gibi uygulamaları ancak bir sorumlu hekimin gözetiminde yapabilir.
  - f) İntörnlük rehberinde yazılı pratik uygulamaları (girişimleri) öğrenip bunlarla ilgili becerilerini sorumlu öğretim üyesinin gözetiminde geliştirmelidir. Yapılan pratik uygulamalar (girişimler) ile ilgili ortaya çıkabilecek tüm komplikasyon ve sorunlardan intörn değil, hastanın "hekimi" sorumlu olacaktır.

- İntörnler kendi rehberlerinde sorumlu oldukları hekimlik uygulamaları dışında kurumun hizmet açığını kapatmak için veya eğitim amacının dışına çıkacak biçimde görevlendirilemezler.
- h) İntörnler acil durumlar dışında hasta taşımaz; ancak kendi sorumluluğundaki hastalar bir personel tarafından taşınırken onlara eşlik edebilirler.
- intörnler acil durumlar dışında hiç bir şekilde hastaya ait örnekleri (kan, idrar, gaita vb) laboratuvarlara taşımakla yükümlü tutulamazlar.
- İntörnler çalışma ortamında bir hekime yakışır özende giyinmeli ve görünmelidir ve kimlik kartlarını görevli oldukları zamanlarda görünür biçimde takmak zorundadır. Hastalarına kendilerini "intörn" olarak tanıtmalıdırlar.
- j) İntörn, eğitim amacı ile sorumluluğu kendilerine verilen hastanın öyküsünü alıp fizik muayenesini yapmalı, gerekli tetkikleri öğretim üyesi ya da araştırma görevlisi gözetiminde istemelidir. Ayrıca hasta ile

#### düzenli

- bir iletişim kurmalı, sorunlarını ve hastalığının seyrini takip etmeli, servis vizitlerinde öğretim üyelerine hastayı sunabilmelidir.
- k) Hastane dışında yürütülen programlarda ilgili Anabilim Dalı veya dallarının ve programın yürütüleceği kurumun belirlediği sınırlar içinde hizmetlere katılmak (aşılama, okul taramaları, periyodik muayene, işe giriş muayenesi, filyasyon çalışması, işyeri denetimleri vb.) ve ilgili kurumun çalışma saatlerine uymakla yükümlüdür.
- Hizmet verdiği toplumda hizmet verilen kişiler ve diğer sağlık çalışanları ile doğrudan ve uygun iletişim kurmalıdır.

y

|                                |
| Skills that should be improved |
|                                |
|                                |

#### F. RESULT (please write down the result in the blanks)

SUCCESSFUL (Başarılı)
UNSUCCESSFUL (Basarısız)

- \* Student is requested to hand in the form to secretariat at the end of each internship program
- \*\* Supervisor is requested to fill in the items mentioned under "A" up to "F" and signature the form
- \*\*\* This form should be fulfilled in an internship period for each department in the middle and at the end of the program. If a student has an insufficient level from any of A, B, C, D part of the 1st observation a follow up should be done until the 2nd observation. If a student is insufficient from both observations he/she will be failed.
- $\int$  Sufficient means that a student performed at least 60% of the expected performance from A, B, C and D parts separately .
